

Michael Shaw

Michael is a founder and President of Freedom Advocates, (originally Freedom 21 Santa Cruz). He has worked as a licensed certified public accountant, tax attorney, self-employed businessman and abundance ecologist.

In the mid-90's Michael participated in the Santa Cruz County, California "Local Agenda 21" program. Now he warns of its dangers and the tyranny of Sustainable Development to audiences around the country. He leads Freedom Advocates, speaks, writes, hosts, and is a frequent guest on talk radio.

As an innovative abundance ecologist Michael took 75 acres of overgrown weedy land and created Liberty Garden, now a native plant coastal oasis. It gained recognition when featured on the cover of an international environmental science journal. His breakthrough creation of a native plant wonderland shows, by example, how private property provides better stewardship of the earth than does collectivist control. See www.libertygarden.com.

As President of Freedom Advocates, Michael leads our efforts to inform on:

- The ideals of Liberty
- The nature of personal and family autonomy
- Private property
- Legitimate government
- How the United Nation's (UN) Sustainable Development Agenda 21 is being implemented throughout America to establish:
 - Collectivist systems of government, justice, and economics
 - The education of our children as global citizens
 - To control and reduce the human population.

Michael works to provide information, political theory, and a basis for hope via re-action through www.freedomadvocates.org.
