

Let's attack the root of the problem:

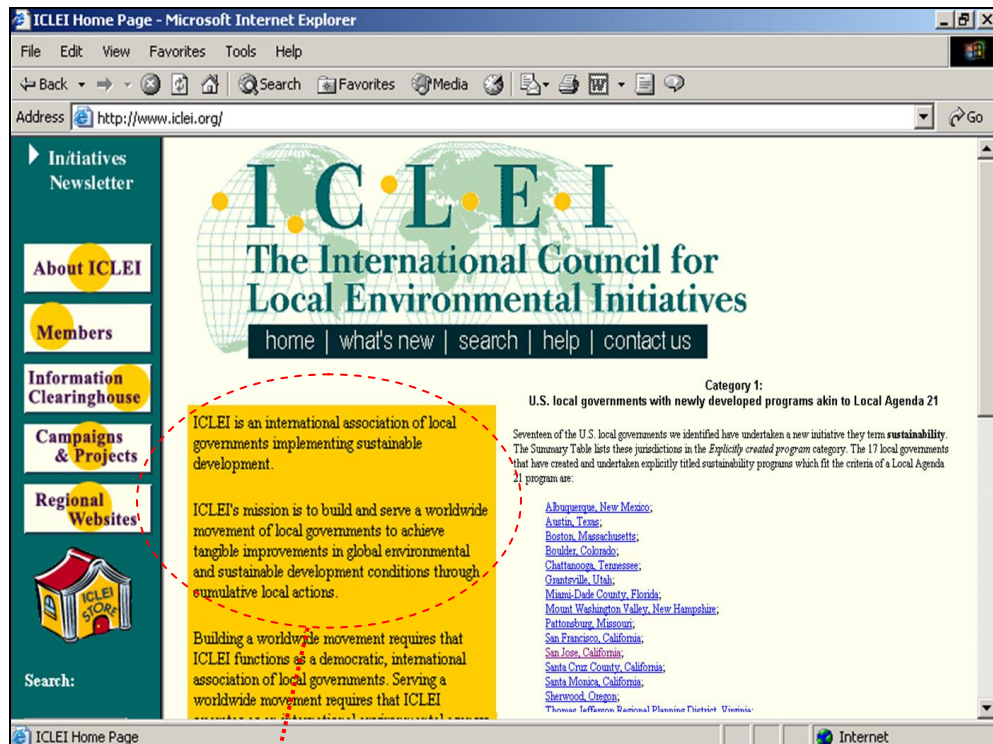

- Learn to recognize the local and broader patterns and tenants of Agenda 21. This way you can fight back with insight, starting where the attack all around you is happening and where you can win – at the local level.

The Globalist invasion is happening right under our noses. Every county in America has its local Agenda 21 implementation underway.

Let's examine aspects of the 'Local Action' Plan:

ICLEI

This is the most vulnerable globalist organization operating in America today.

[Advance PPT]

ICLEI is the international environmental agency for local governments.

ICLEI's mission is to build and serve a worldwide movement of local governments to achieve tangible improvements in global environmental and sustainable development conditions through cumulative local actions.

The full name of ICLEI is “The International Council for Local Environmental Initiatives”. It is also called “Local Governments for Sustainability”.

ICLEI is an important NGO that:

- Closely ties policy to man-made Global Warming and climate change.
- Has formed an international Congress filled with city and county representatives. This Congress acts as a shadow World Government.
- Directs Community Development and other local agencies and provides statutory and regulatory provisions that implement Sustainable policy locally.

Local tax funds pay the contract fee. Agenda 21 policy-making is fully embedded upon ICLEI’s arrival. At least 600 cities, including Bloomberg led New York City, from all across the nation, have ICLEI contracts. Local governments have been hijacked by world government agents.

Each ICLEI city's influence is expanded as ICLEI then automatically steers Regional Air, Transportation, Water Boards and many other "regional" transformational governance apparatus such as the *Arkansas Watershed Advisory Group (AWAG)*.

Article 1 Section 10 of the U.S. Constitution makes the following prohibition: "No state shall enter into any Treaty, Alliance or Confederation" with a foreign political entity. Neither may a city. Ask: Is it treasonous for city leaders to contract with ICLEI an International NGO and U.N. related organization? Yes! ICLEI contracts are treasonous.

Arkansas ICLEI Cities

[Fayetteville](#)

[North Little Rock](#)

[Pulaski County](#)

<http://www.umayors.org/climateprotection/list.aspx>

Contracts with ICLEI guarantee implementation of international political and economic policy at the local level. Drive city alliances with ICLEI out of the communities surrounding you.

Where's the Sheriff? It is time for good Sheriffs to take action! Ridding towns of ICLEI is more important to the future of America than was the Sheriff's role in ridding the west of rustlers and train robbers! If Sheriffs are America's last hope, we need Sheriffs to start Kicking ICLEI Out of communities. City attorneys and County Counsel's offices also have a role to play. Their duty *is* as a fiduciary to you. Failure to protect you from ICLEI breaches their fiduciary duty and makes them liable to citizens.

So much of the Agenda 21 invasion at the local level relies on the man-made global warming fraud. But the unraveling of this masquerade has not yet hit the local political scene. ICLEI is particularly vulnerable because of general public awareness concerning the 'man-made warming' fraud. For several reasons citizens need to react to ICLEI soon! Now *is* the time.

Residents in Spokane Washington and various cities in the Colorado plains are taking on their city's contract and contract with ICLEI as other localized rebellions brew. You can do this too. We are following the *Kick ICLEI Out!*, campaign at FreedomAdvocates.org.

I am going to sample the Arkansas and Little Rock area and pull examples of Agenda 21 Sustainable Development as it routinely pops up on the local scene. Most hometown participants think they are doing something unique, others think they are doing something for mankind – well – they are. They are putting mankind on the verge of serfdom.

You can recognize globalism operating at the local level by recognizing the themes and programs presented by the local Action network and understanding them in the context of Agenda 21.

Regionalism is the watchword. It is a core aspect of Sustainable Development. Regionalism might sound

benign, but the consequences that come as a result of political regionalism must be understood by freedom loving people or liberty will be trampled. Regionalism is being used to destroy traditional boundaries and usher in a transformed system of governance that abolishes private property; a goal of Sustainable Development Agenda 21.

In the words of Charlotte Iserbyt former Department of Education Official, “Regionalism is Communism”. It erases political boundaries and thus representative government. Regional governance cannot coexist with a Republic form of government.

Let’s start by viewing a local regional council. The *Arkansas Watershed Advisory Group (AWAG)* is a statewide soviet-style that develops policy that is then rubber-stamped by elected officials, with no meaningful public discourse. The policy ends up destroying land owners’ use of water. In the

regionalization process, control of water is transferred from land owners to multi-national corporate and/or government control agents, who then begin their work to achieve sustainable development objectives which include severe limitations on individual water use.

 **Arkansas Watershed Advisory Group**

<http://www.awag.org/index.html>

About AWAG
The Arkansas Watershed Advisory Group was formed to assist. . . citizens and organizations by promoting local . . . watershed management and conservation.
. . . to better address the public's needs concerning our water resources. . . the Arkansas Watershed Advisory Group have been partly funded by a series of Environmental Protection Agency 104 (b)(3) grants.

Gulf of Mexico Alliance
We have added a new link in our [Links](#) section pertaining to education and activities in the Gulf area.

<http://www.awag.org/index.html>

The Gulf of Mexico Alliance is a federal assault on the sovereignty of the southern states, endorsed by the legislature.

Gulf of Mexico Alliance

The Gulf of Mexico Alliance
A regional partnership formed to implement the U.S. Ocean Action Plan in the Gulf of Mexico. The public Website posts activities of the Priority Implementation Teams including: Coastal Community Resilience, Ecosystems Integration and Assessment, Environmental Education, Habitat Conservation and Restoration, Nutrients and Nutrient Impacts, and Water Quality.

<http://www.epa.gov/gmpo/>

There is a grand collaboration working to change water policy in a way to gain control over your water and further sustainable development and smart growth objectives.

The Arkansas Sustainability Network:

ARKANSAS SUSTAINABILITY NETWORK

... Social ... Economic ... Environmental ...

Arkansas Sustainability Network (ASN) is a non-profit educational organization. Our mission is to develop more sustainable communities through education, innovation, and collaboration. We were founded in 2006 to encourage community collaboration and progress towards a healthy social, economic, and environmental future.

What does sustainable mean and what is sustainability?
Sustainable development meets the needs of the present without compromising the ability of future generations to meet their needs. Needs that include:

- a healthy environment – green spaces, pollution-free communities, and access to fresh, local food
- a strong economy – jobs and successful local farms and businesses
- a vibrant society – livable neighborhoods, access to basic education, and cultural opportunities

Sustainable development ties together concern for our natural systems with social challenges facing our community and humanity. Sustainability is a process of... ASN strives to address aspects of sustainable development through our programs and projects.

/index.php?option=com_content&v...

Remember the Economic “E” of Sustainable Development is Public Private Partnerships.

The purpose of Public Private Partnerships is to consolidate (“collaboration”) the global and regional effort to conspire against the idea of private property. They do this, in part, by advocating and establishing a

system of “partners” who will cooperate with the new world order.

[Regionalism, Globalism!]

My hometown county of Santa Cruz has similarly mapped the drainage outlets to the Monterey Bay National “Sanctuary.” This was more than 5 years ago. Now government agencies, together with associated non-profits, NGOs and academic collaborators, have developed a program to control all “non point pollution” sources. This means controls over water use, including over all activities that have a potential for affecting rainwater drainage or agricultural irrigation drainage.

The Core Methodology -- Regionalism

The Mississippi River basin drains approximately 41% of the land area of the conterminous United States, ranging as far west as Idaho, north to Canada, and east to Massachusetts.

NOAA=
National
Oceanographic
& Atmospheric
Administration

Regionalism practiced by organizations like AWAG produces policy and strategy for the state of Arkansas. These organizations exist to advance the globalist goal to abolish private property, promote the relocation of people from Wildlands and corridor areas and the conscription of public private partners – the *mandatory volunteers* of the new fifth column.

Who's in charge – the watershed authority or your local county? That's the question.

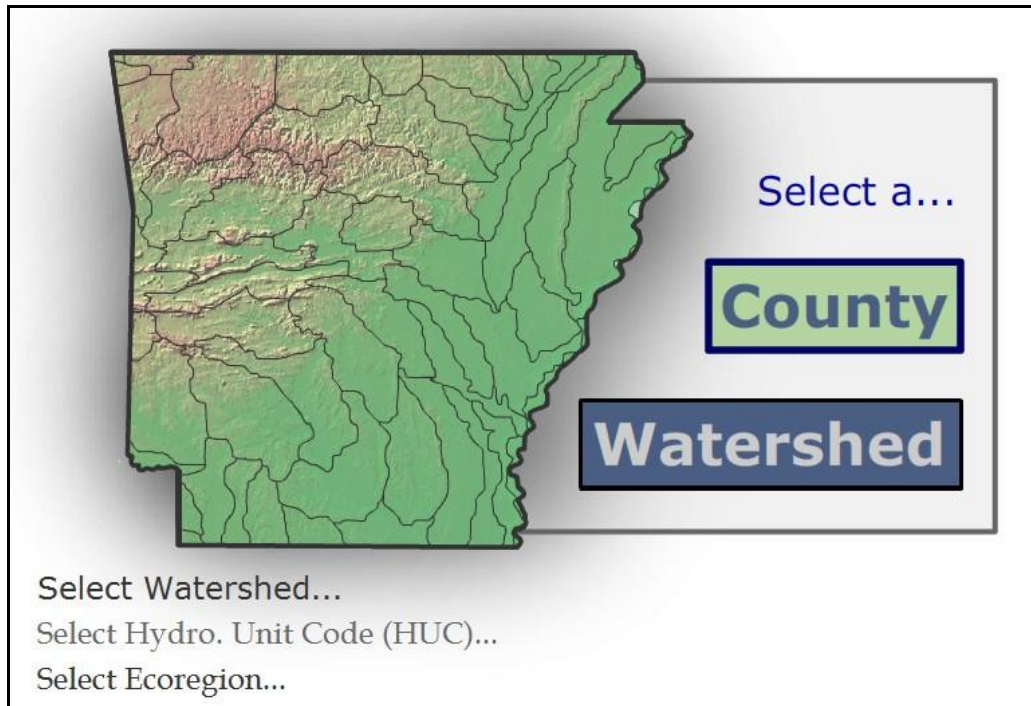

County View/Boundary Lines:

The screenshot shows the homepage of [ArkansasWater.org](http://arkansaswater.org). The header features the site's name in a large, stylized font with the tagline "Your one-stop for Arkansas water quality information". Below the header, the text "ArkansasWater.org" is followed by a description: "ArkansasWater.org compiles and shares water quality information and resources." The central feature is the "Open County/Watershed Selector" tool, which includes a map of Arkansas with county boundaries. To the right of the map are two dropdown menus labeled "Select a..." with "County" and "Watershed" as options. Below the map is a "Select County..." link. At the bottom, a paragraph explains the funding for the website, mentioning the Environmental Protection Agency (EPA), the Arkansas Natural Resources Commission (ANRC), and the Arkansas Association of Conservation Districts (AACD). A URL is provided at the very bottom: http://arkansaswater.org/index.php?option=com_frontpage.

You are being “Communized”. Here’s where Arkansas will be if you let this continue.

Watershed View/Boundary Lines:

There are 7 watersheds within Pulaski County:

- ◆ Bayou Meto
- ◆ Fourche La Fave
- ◆ Lake Conway – Point Remove
- ◆ Lower Arkansas
- ◆ Lower Arkansas – Maumelle
- ◆ Lower White – Bayou Des Arc
- ◆ Upper Saline

Despite the existence of legitimate reasons for mapping watersheds and river basins, this kind of mapping is part of a nefarious globalist Sustainable Development Action Plan.

What this 'Action' is intended to accomplish is give policy makers the opportunity to impose "watershed" restrictions, massive restrictions on any land based activity. You will see how this begins the process of ridding rural landscapes of free enterprisers and private property owners.

This is the organization that monitors the watershed activity so that ultimate control of the resource can be centralized.

Why the country is going broke. Part of the plan.

Monitor and Control – Abolishes private property.

About Us

WCRC provides specialized assistance concerning watershed resource issues to a variety of organizations including; watershed groups; local, state and federal governments; non-profit organizations; conservation districts; and other entities that request assistance.

- Watershed assessment
- **Water quality monitoring**
- Stream stabilization and restoration
- GIS mapping and natural resource database development
- **Environmental data collection**

The watersheds are used to grab regional control and that's how they grab private property. Water can be used to control all land use activity. If the forces of

power achieve this planned outcome, we as individuals become chattel. Control the water, control the people.

Now let's look at the city of Little Rock.

Mayor Mark Stodola formed the *Little Rock Sustainability Commission* in 2008 to promote and support sustainability in the city of Little Rock. Membership is supported by city staff.

Little Rock Sustainability Commission

Vision Statement:

The City of Little Rock is a thriving community where the **social** well-being of current and future citizens is supported by a vibrant **economy** and a **healthy environment**.

Mission Statement:

Little Rock Sustainability Commission provides education, leadership and vision for current and future citizens, organizations and departments of the City of Little Rock to sustain our **environment**, enhance our **economy**, and achieve **social equity**.

LITTLE ROCK REGIONAL CHAMBER OF COMMERCE

Workforce

Public, Private Partnerships Provide Skilled Labor

The Business and Industry Training Program (BITP) is focused on customized training...

A partnership between six State Agencies has been established to ensure that companies in need of locating employees have access to individuals who have the basic employability skills ...

AEDC's Business and Industry Training Program provides start-up training for new and expanding businesses ...that are implementing new technology.

The Existing Workforce Training Program (EWTP) provides financial assistance to Arkansas companies for upgrading the skills of their existing workforce.

The program is administered by a governing council that consists of a representative from three state departments: The Department of Higher Education, Arkansas Department of Workforce Education and The Arkansas Economic Development Commission (AEDC).

The youth are being prepped for Global Citizenship and the effort is working.

In polling we learned that last year a majority of 2009 high school and college grads identify themselves as “global citizens” not as Americans. Sustainability is being jammed down every youngster’s throat. The future is at risk.

AWAG Arkansas Watershed Advisory Group

Bring the environment into your classroom and still meet today's standards!

Education Connections

The guide is designed to meet the common components of **national education reform** by using the **constructivist approach to learning, whole language teaching, cooperative learning, problem solving, and authentic assessments.**

<http://www.awag.org/education>

People wonder why the youth aren't performing. Where's the learning? Where are the facts?

The school system is indoctrinating our children into global citizenship through a commitment to globalist ideology.

Why do parents succumb?

The following listing incorporates those elected officials who give their support to ICLEI global warming policy. These people need to be voted out of office.

**Arkansas
Mayors for Climate Change**

Dani Joy	Eureka Springs
Goheld Jordan	Fayetteville
Raymond Baker	Fort Smith
Mark Stodola	Little Rock
Patrick Hays	North Little Rock

<http://www.umayors.org/climateprotection/list.aspx>

Things like ICLEI's climate change "Best Practices" account for the federal government's financial condition. States and municipalities also commit massive resources to the policy commitments that fuel the Globalist transformation.

**President of ICLEI USA wins major climate award
June 23, 2010**

Mayor Hays, who is also a member of the [World Mayors Council on Climate Change](#) accepted the Small City category award (Chicago won the Large City award) at the U.S. Conference of Mayors annual meeting in Oklahoma City and offered some advice to colleagues:

Mayor Patrick Hays
at Resilient Cities 2010
Bonn, Germany, in May

Take incremental steps, build momentum and then watch change take root.

By coming together for a **common cause** and being proactive, local governments can—and have—**influenced** state, federal, and international policy makers.

As the President and Board Chairman of ICLEI-Local Governments for Sustainability

USA, Mayor Hays is recognized worldwide, in all levels of government, as one of the most **vocal leaders** in support of local government **climate action**.

"former"

http://www.worldmayorsagreement.com/index.php?id=1487&tx_ttnews%5Bpointer%5D=5&tx_ttnews%5BpS%5D=1262336077&tx_ttnews%5Burl%5D=http://www.iclei.org/index.php?id=7798

[ICLEI is a foreign organization and important NGO that closely ties policy to man-made global warming and climate change... ICLEI is on a mission to transform local government and steers regional transformation governance apparatus...]

People across America need to realize that the man-made global warming charade is being used to drive local policy to usher in globalism in transition from the American way.

Consider what has been illustrated here today – The Wildlands Project, Smart Growth, Regionalism, the Three Es, Sustainable Communities and Sustainable ideology, Monitoring methods, and Education for Global Citizenship.

Agenda 21 people are organized even as their active drones don't know what they are organized around. Agenda 21 shows itself everywhere you look.

Do you think our politicians and bureaucrats are serving us?
