

## **Let's attack the root of the problem:**

- Learn to recognize the local and broader patterns and tenants of Agenda 21. This way you can fight back with insight, starting where the attack all around you is happening and where you can win – at the local level.

The Globalist invasion is happening right under our noses. Every county in America has its local Agenda 21 implementation underway.

## Megaregion – The Texas Triangle

Texas has a well developed Globalist Plan. For example, the *Texas Triangle* consists of Dallas-Fort Worth, Houston and San Antonio as the triangle points and all the cities along and within those points. *America 2050* wants to shape the infrastructure of the United States based on the concepts of environmental sustainability and social equity. San Marcos is part of the “Megaregion” Texas Triangle.

**America 2050**

### Infrastructure

Rebuilding and Renewing America

**Transportation For America**

Our goal for shaping the infrastructure investment plan is to promote a "triple bottom line" strategy for infrastructure development in the United States. This concept refers to using environmental sustainability and social equity measures as the other important "bottom lines" . . .

The creation of a NAFTA superhighway is an integral part of the plan.

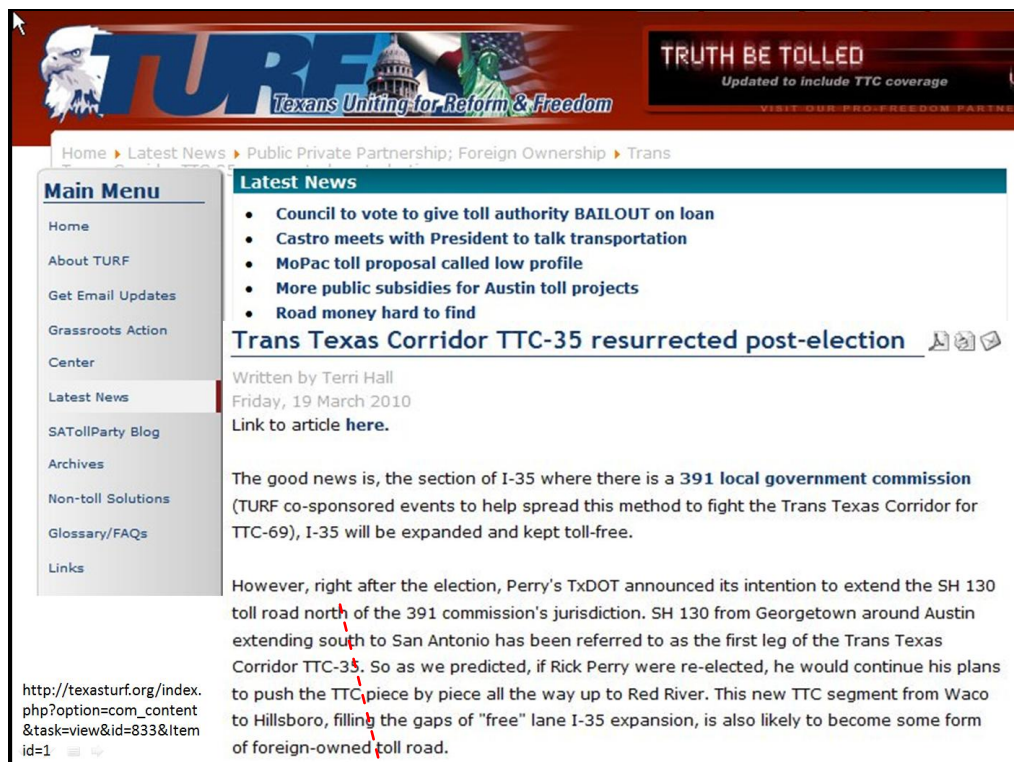

**America 2050**

### Texas Triangle

By 2050 about 35 million people, or 70 percent of the population of Texas, will live in the four metropolitan areas that comprise the **Texas Triangle**. Three of the nation's 10 largest cities are in the Triangle, including Houston, which has a port that handles more foreign tonnage than any other U.S. port. Efforts to create a **NAFTA superhighway from Mexico to Canada could create a developed corridor through San Antonio, Austin, and Dallas.**

[http://www.america2050.org/texas\\_triangle.html](http://www.america2050.org/texas_triangle.html)

Texas TURF (Texans Uniting for Reform & Freedom) has been effective in fighting the Trans Texas Corridor (TTC).

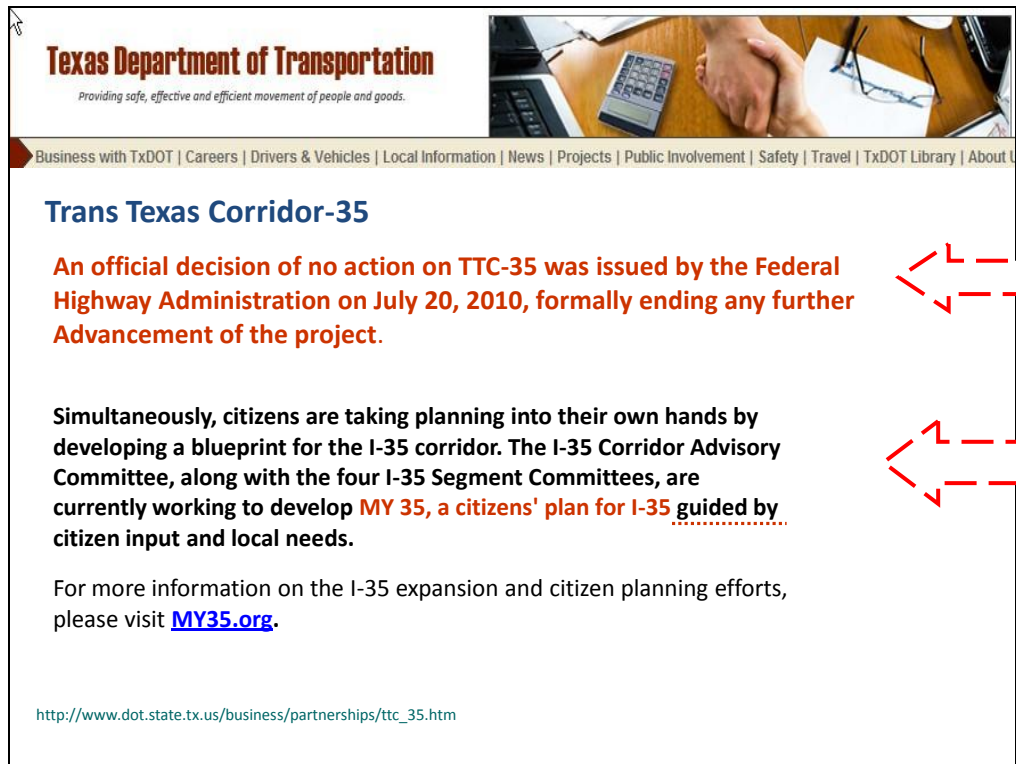

[Advance PPT – click]

However, right after the election, Perry's TxDOT announced its intention to extend the SH 130 toll road north of the 391 commission's jurisdiction. SH 130 from Georgetown around Austin extending south to San Antonio has been referred to as the first leg of the Trans Texas Corridor TTC-35. So as we predicted, if Rick Perry were re-elected, he would continue his plans to push the TTC piece by piece all the way up to Red River. This new TTC segment from Waco to Hillsboro, filling the gaps of "free" lane I-35 expansion, is also likely to become some form of foreign-owned toll road.

The Texas Department of Transportation reported in July 2010 that the Trans Texas Corridor-35 (TTC-35) was dead. But is it really?

Perfect  
"Re-  
Branding"

The screenshot shows the Texas Department of Transportation website. At the top, it says "Texas Department of Transportation" with the tagline "Providing safe, effective and efficient movement of people and goods." Below this is a navigation menu with links for "Business with TxDOT", "Careers", "Drivers & Vehicles", "Local Information", "News", "Projects", "Public Involvement", "Safety", "Travel", "TxDOT Library", and "About Us". The main heading is "Trans Texas Corridor-35". The text below reads: "An official decision of no action on TTC-35 was issued by the Federal Highway Administration on July 20, 2010, formally ending any further Advancement of the project." This is followed by a paragraph: "Simultaneously, citizens are taking planning into their own hands by developing a blueprint for the I-35 corridor. The I-35 Corridor Advisory Committee, along with the four I-35 Segment Committees, are currently working to develop MY 35, a citizens' plan for I-35 guided by citizen input and local needs." A final paragraph says: "For more information on the I-35 expansion and citizen planning efforts, please visit MY35.org." At the bottom, there is a URL: [http://www.dot.state.tx.us/business/partnerships/ttc\\_35.htm](http://www.dot.state.tx.us/business/partnerships/ttc_35.htm). There are two red dashed arrows pointing left towards the text on the right side of the screenshot.

TTC-35 is now "MY 35" – the mirage of a "dead" Trans Texas Corridor.

*Hardly  
a citizen  
action  
group!*

Let's examine aspects of the 'Local Action' Plan.

# ICLEI

This is the most vulnerable globalist organization operating in America today.

[Advance PPT]

ICLEI is the international environmental agency for local governments.

ICLEI's mission is to build and serve a worldwide movement of local governments to achieve tangible improvements in global environmental and sustainable development conditions through cumulative local actions.

The full name of ICLEI is “The International Council for Local Environmental Initiatives”. It is also called “Local Governments for Sustainability”.

ICLEI is an important NGO that:

- Closely ties policy to man-made Global Warming and climate change.
- Has formed an international Congress filled with city and county representatives. This Congress acts as a shadow World Government.
- Directs Community Development and other local agencies and provides statutory and regulatory provisions that implement Sustainable policy locally.

Local tax funds pay the contract fee. Agenda 21 policy-making is fully embedded upon ICLEI’s arrival. At least 600 cities, including Bloomberg led New York City, from all across the nation, have ICLEI contracts. Local governments have been hijacked by world government agents.

Each ICLEI city's influence is expanded as ICLEI then automatically steers Regional Air, Transportation, Water Boards and many other "regional" transformational governance apparatus such as the *Capital Area Council of Governments (CAPCOG)*.

Article 1 Section 10 of the U.S. Constitution makes the following prohibition: "No state shall enter into any Treaty, Alliance or Confederation" with a foreign political entity. Neither may a city. Ask: Is it treasonous for city leaders to contract with ICLEI an International NGO and U.N. related organization? Yes! ICLEI contracts are treasonous.

<b>Texas ICLEI Cities</b>	
<a href="#"><u>Arlington</u></a>	<a href="#"><u>Garland</u></a>
<a href="#"><u>Austin</u></a>	<a href="#"><u>Grapevine</u></a>
<a href="#"><u>Bryan</u></a>	<a href="#"><u>Houston</u></a>
<a href="#"><u>College Station</u></a>	<a href="#"><u>Irving</u></a>
<a href="#"><u>Coppell</u></a>	<a href="#"><u>Plano</u></a>
<a href="#"><u>Dallas</u></a>	<a href="#"><u>Richardson</u></a>
<a href="#"><u>Denton</u></a>	<a href="#"><u>San Antonio</u></a>
<a href="#"><u>Edinburg</u></a>	<a href="#"><u>South Padre Island</u></a>
<a href="#"><u>El Paso</u></a>	<a href="#"><u>Texarkana</u></a>

Contracts with ICLEI guarantee implementation of international political and economic policy at the local level. Drive city alliances with ICLEI out of the communities surrounding you.

Where's the Sheriff? It is time for good Sheriffs to take action! Ridding towns of ICLEI is more important to the future of America than was the Sheriff's role in ridding the west of rustlers and train robbers! If Sheriffs are America's last hope, we need Sheriffs to start Kicking ICLEI Out of communities. City attorneys and County Counsel's offices also have a role to play. Their duty *is* as a fiduciary to you. Failure to protect you from ICLEI breaches their fiduciary duty and makes them liable to citizens.

So much of the Agenda 21 invasion at the local level relies on the man-made global warming fraud. But the unraveling of this masquerade has not yet hit the local political scene. ICLEI is particularly vulnerable because of general public awareness concerning the 'man-made warming' fraud. For several reasons citizens need to react to ICLEI soon! Now *is* the time.

Residents in Spokane Washington and various cities in the Colorado plains are taking on their city's contract and contract with ICLEI as other localized rebellions brew. You can do this too. We are following the *Kick ICLEI Out!*, campaign at [FreedomAdvocates.org](http://FreedomAdvocates.org).

I am now going to sample the San Marcos area and pull examples of Agenda 21 Sustainable Development as it routinely pops up on the local scene. Most hometown participants think they are doing something unique, others think they are doing something for mankind – well – they are. They are putting mankind on the verge of serfdom.

You can recognize globalism operating at the local level by recognizing the themes and programs presented by the local Action network and understanding them in the context of Agenda 21.

Let's start by viewing a local regional council. The *Capital Area Council of Governments (CAPCOG)* is a soviet style council that develops policy that is then rubber-stamped by elected officials, with no meaningful public oversight. It is an extra constitutional level of government that advances globalist objectives.

<p><b>Serves</b> <b>10</b> <b>counties</b></p>	<p><a href="http://www.capcog.org/about-capcog/#mission2">http://www.capcog.org/about-capcog/#mission2</a></p> <p><b>Capital Area Council of Governments</b>  <small>Serving Bastrop, Blanco, Burnet, Caldwell, Fayette, Hays, Lee, Llano, Travis, and Williamson Counties</small></p> <div style="text-align: right;">  <p><b>YEARS OF REGIONAL LEADERSHIP</b> 1970 - 2010</p> </div> <p><b>Goals</b>                  To lead in the <b>promotion of regionalism</b>;                  To build <b>partnerships</b> for the <b>economic, environmental,</b> and <b>social development</b> of the region;</p> <p><b>What Is A Council Of Governments (COG)?</b>                  Councils of Governments are <b>voluntary associations</b> of counties, cities, and special districts formed under Texas law. These associations deal with the problems and planning needs that cross the boundaries of individual local <u>governments or that require regional attention.</u> Although known by several different names, including council of governments, regional planning commissions, associations of governments and area councils, they are most commonly referred to as "COGs".</p>
--	---

In short, *CAPCOG* exists to advance the globalist goals of regionalizing, abolishing private property, promoting the relocation of people from Wildlands and corridor areas to Smart Growth areas, and the conscription of

public private partners – the mandatory volunteers of the new fifth column.

Regionalism practiced by the *Capital Area Council of Governments (CAPCOG)* has birthed and administered the Texas Wildlands and Smart Growth policies including the environmental, economic, and transportation strategy for the 10-county *Capital Area* that includes San Marcos. This is a prototypical Agenda 21 soviet council. The scary part is that organizations like *CAPCOG* are everywhere. But the battle is always local.

Regionalism is the watchword. It is a core aspect of Sustainable Development. Regionalism might sound benign, but the consequences that come as a result of political regionalism must be understood by freedom loving people or liberty will be trampled. Regionalism is being used to destroy traditional boundaries and usher in a transformed system of governance that abolishes private property; a goal of Sustainable Development Agenda 21.

In the words of Charlotte Iserbyt former Department of Education Official, “Regionalism is Communism”. It erases political boundaries and thus representative government. Regional governance cannot coexist with a Republic form of government. We can account for much that is wrong today to organizations such as *CAPCOG*.

The purpose is to consolidate (“collaboration”) the global and regional effort to conspire against the idea of private property. They do this, in part, by advocating and establishing a system of “partners” who will cooperate with the new order. Often these people are present landowners. Of course the “partnership” has one way authority for most participants. The table will be shrunk once the collaboration consolidates. Such is the change or transformation that is taking place today.

The pictures are so nice, the simple expression of the words so innocent sounding... Beware.

The screenshot shows the Envision Central Texas website. At the top left is the logo with the text "ENVISION CENTRAL TEXAS" and "YOUR IDEAS \* OUR REGION'S FUTURE". To the right is a photograph of a park with a wooden bridge over a stream. Below the logo is a navigation menu with "HOME", "ABOUT US", and "MAKING THE VISION REAL" (which is highlighted). Under "MAKING THE VISION REAL" are links for "Program of Work" and "About the Process". The main content area features the text "IMAGINE THE POSSIBILITIES GET INVOLVED" and "SHARE YOUR IDEAS program of work". Below this, the mission and goal are stated in bold, italicized text. The mission states that ECT serves as a catalyst for regional cooperation and planning to realize a common vision for Central Texas. The goal states that ECT must improve how the region grows to sustain its quality of life and competitiveness. A final paragraph describes how ECT promotes and communicates the elements of the vision, convenes regional dialogues, and creates tools to assist cities and counties in creating livable, sustainable communities and measuring progress toward the vision. A URL is provided at the bottom right: <http://envisioncentraltexas.org/programofwork.php>

***Our Mission:*** Envision Central Texas (ECT) serves as a catalyst for regional cooperation and planning in order to realize a **common Vision** for Central Texas which preserves and enhances our natural resources, **economic vitality, social equity and overall quality of living.**

***Our Goal:*** We must improve how we grow in order to sustain our region's quality of life and competitiveness. The focus of ECT is on what, where and when we build, and how that impacts natural resources and mobility.

To help achieve this goal, ECT promotes and communicates the elements of the Vision, convenes regional dialogues to address growth challenges, creates tools to assist cities and counties in **creating livable, sustainable communities and measures progress toward the Vision.**

<http://envisioncentraltexas.org/programofwork.php>

## The Wildlands Project in Action in Central Texas:

**Wildlands Project in Action**

The Central Texas Greenprint for Growth:  
*A Regional Action Plan for Conservation and Economic Opportunity*

**A Green Vision for Central Texas**

...fostering the kind of livable communities that attract the very best businesses and jobs.

# Wildlands Project in Action

**The Central Texas Greenprint for Growth:  
A Regional Action Plan for Conservation and Economic Opportunity**

### Why Create a Central Texas Greenprint?

The regional nature of this Greenprint helps to identify synergies between jurisdictions and develop strategies to support collective and individual county land protection plans.

<http://www.envisioncentraltexas.org/resources/GreenprintMkt.pdf>

## Central Texas Greenprint for Growth – Regional Overall Conservation Opportunities:

Nazi Germans were early greens. Adolf Hitler's commitment to forest protection was fulfilled as he implemented his resource monitoring system. It was... well, pure fascism. Today we call the same thing happening in America 'public private partnerships'! You too can be a partner – just accept the concept of voluntary compliance to the new order.

“Get your Permit!” (or else...says the Fuhrer)

# Go Green San Marcos – the program for the city of San Marcos

The screenshot shows the homepage of the City of San Marcos' Go Green initiative. At the top left is the City of San Marcos logo and name. Below it is the 'Go Green San Marcos' title. The main content area is divided into four categories: Water Conservation, Energy Efficiency, Land Preservation, and Waste Reduction/Recycle. Each category has a small icon and a brief description. To the right of these categories is a 'QUICK LINKS' section with four links: '40 Ways to Go Green', 'GoGreen Links', 'Bike Map', and 'Lone Star Rail'. A red dashed line highlights the 'QUICK LINKS' section. At the bottom left of the page is the URL 'http://sanmarcostx.gov/gogreen/'.

**Water Conservation**  
Learn how to efficiently use and preserve our most natural resource.

**Energy Efficiency**  
Find solutions to save energy around your home and business.

**Land Preservation**  
Get involved to beautify our parks and preserve our land.

**Waste Reduction/Recycle**  
Take action on ways to Reduce, Re-Use and Recycle.

**QUICK LINKS**

- [40 Ways to Go Green](#)
- [GoGreen Links](#)
- [Bike Map](#)
- [Lone Star Rail](#)

<http://sanmarcostx.gov/gogreen/>

This screenshot is identical to the one above, but with a red dashed line highlighting the introductory text on the left side of the page. The text describes the city's commitment to sustainable development and the purpose of the Go Green initiative.

The City of San Marcos recognizes that economy, society, and the environment are closely interconnected and that we must make wise choices ... The City is committed to...sensible management of...environmentally sustainable economic development, and much more.

The Go Green initiative was developed to educate City staff and citizens about sustainable living, and to inspire them to take action.

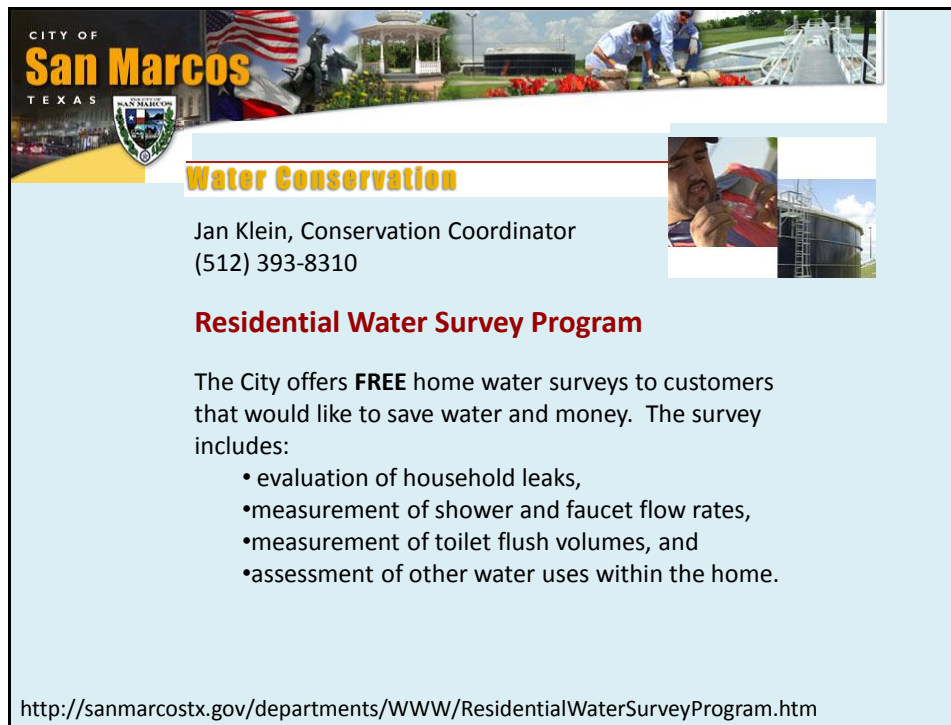

**QUICK LINKS**

- [40 Ways to Go Green](#)
- [GoGreen Links](#)
- [Bike Map](#)
- [Lone Star Rail](#)

<http://sanmarcostx.gov/gogreen/>

What that means is that we are to live in tightly controlled environments, with high density, without autos and subject to “smart” system monitoring.

## Water Conservation in the city of San Marcos

A graphic for the City of San Marcos Water Conservation program. It features a banner at the top with the city logo, an American flag, a park scene, and two people working in a garden. Below the banner is the title "Water Conservation" in yellow. To the right is a small photo of a man holding a red water leak detector. The text below provides contact information for Jan Klein, Conservation Coordinator, and describes the Residential Water Survey Program, which offers free home water surveys. A list of survey items includes evaluation of household leaks, measurement of shower and faucet flow rates, measurement of toilet flush volumes, and assessment of other water uses within the home. A URL is provided at the bottom.

The URL <http://www.hillcountryalliance.org/HCA/Issues> is at the bottom.

*LEED is an ICLEI program (can be connected to ICLEI in every case).*

The screenshot shows the Hill Country Alliance website. The header includes the logo 'education conservation cooperation' and 'hillcountryalliance.org'. A navigation menu contains 'About Us', 'In the News', 'Issues', 'Events', 'Resources', and 'Get Involved'. Below the menu are three images: a waterfall, a red bird on a branch, and a forest scene. The main content area is titled 'Sustainable Development & Green Building in the Hill Country' and contains the following text:

The Leadership in Energy and Environmental Design (LEED) Green Building Rating System advances the global adoption of sustainable greenbuilding and development practices through a set of universally accepted performance criteria. Some of the LEED tools are well suited for Hill Country cities, small towns and even rural residential areas.

<http://www.hillcountryalliance.org/HCA/SustainableDevelopment>

Imagine a community surrounded by Wildlands, where human action is monitored and controlled and where new world human settlements or Smart Growth patterns are connected by transportation corridors.

City of San Marcos, TX Building on our Downtown Plan

**With Our Community Vision in Place,  
Now Comes Implementation**

Next up: Implementing The **Downtown Master Plan** via a development code. And, just as we did with the planning process, we'll do the coding together. The goal is to use a "**form-based code**" or "**SmartCode**" as a tool to achieve a mixture of compatible uses in a walkable, compact environment.

Form-based codes fold zoning, subdivision rules, urban design and architectural standards into **one document for redevelopment.**

**...We're on a fast track** because the City intends to "take a lead role in creating and maintaining **collaborative** approaches regarding issues facing the **region.**"

<http://codingsanmarcos.com/?p=225>

Planned Communities = "Smart Growth"; the stacking and packing of human beings in dense cities where people depend on public transportation rather than auto mobility.

Here we are at the “Feed Store”.

Sustainable policy calls for biking and walking corridors. This isn't the plan for just here in San Marcos, it's happening everywhere.

[Here comes your pedestrian planning...  
Our new mode of transportation, not recreation, is bicycles  
and footpaths.]

But I don't know anyone who uses bicycles for  
transportation. Bicycles are used for recreation.

*CAMPO – Capital Area Metropolitan Planning Organization*

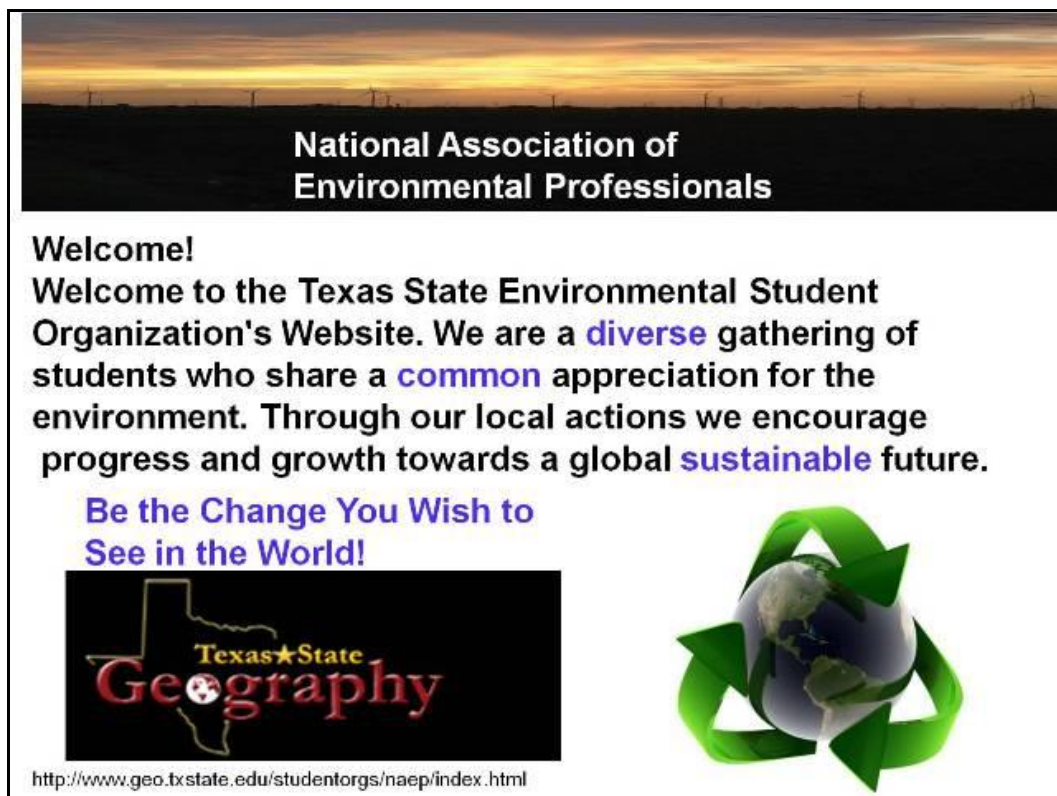

The screenshot shows the CAMPO website header with the logo and navigation links (CALENDAR, NEWS, NEWSLETTER, RESOURCES). Below the header is a banner with images of a bus, a road, and a park. The main content area is titled 'Programs: Bike/Ped' and features a link for 'Regional Bicycle & Pedestrian Planning' with a red arrow pointing to it. Below this link is a description: 'Improving connections among bicycle, pedestrian, transit and roadway systems.' Further down are 'Plans, Maps, and Commuting Tips' with several links: 'Austin Cycling Association', '2035 Priority Bicycle Corridors Map', 'Capital Metro Bikes on the Bus', 'Commute Solutions Biking and Walking', 'Pedestrian and Bicycle Information Center', 'Texas State University-San Marcos Bicycling', and 'University of Texas Biking'. The URL 'http://www.campotexas.org/programs\_bicped.php' is at the bottom right.

Bicycle and Pedestrian Coordination is an  
infrastructure highlight for a “Sustainable” society that  
has abandoned private property, constrained and  
controlled mobility, and one that has abandoned  
individuality.

The youth are being prepped for Global Citizenship and the effort is working.

In polling we learned that last year a majority of 2009 high school and college grads identify themselves as “global citizens” not as Americans. Sustainability is being jammed down every youngster’s throat. The future is at risk.

**National Association of Environmental Professionals**

Welcome!  
Welcome to the Texas State Environmental Student Organization's Website. We are a **diverse** gathering of students who share a **common** appreciation for the environment. Through our local actions we encourage progress and growth towards a global **sustainable** future.

**Be the Change You Wish to See in the World!**

[Facebook](#)  
Follow us on  
[Twitter](#)

<http://www.txstate.edu/commonexperience/>

The school system is indoctrinating our children into global citizenship through a commitment to globalist ideology.

Why do parents succumb?

So much of the globalist invasion at the local level relies on the man-made global warming fraud. The unraveling of this masquerade has not yet hit the local scene. People across America need to realize that the man-made global warming charade is being used to drive local policy to usher in globalism in transition from the American way.

The following listing incorporates those elected officials who give their support to ICLEI global warming policy. These people need to be voted out of office.

<b>Mayors for Climate Change Texas List</b>			
Joe Chow	Addison	Ronald Jones	Garland
Dr. Robert Cluck	Arlington	Richard Ward	Hurst
Will Wynn	Austin	David Begier	Hutto
Becky Miller	Carrollton	Susie Houston	Laguna Vista
Ben White	College Station	Elizabeth Flores	Laredo
Douglas Stover	Coppell	Bill Whitfield	McKinney
C.L. Brown	Corsicana	J. Baumgardner	Mount Vernon
Laura Miller	Dallas	Pat Evans	Plano
Perry McNeill	Denton	Joe Vega	Port Isabel
Joe Ochoa	Edinburg	Gary Slagel	Richardson
John Cook	El Paso	Phil Hardberger	San Antonio
Mary Lib Saleh	Eules	David Marne	Shavano Park
Sim Israeloff	Fairview	Robert Pinkerton Jr.	So. Padre Island
Michael Moncrief	Fort Worth E.	David Wallace	Sugar Land
Michael Simpson	Frisco	Steve Mayo	Texarkana

Things like ICLEI's climate change "Best Practices" account for the federal government's financial condition. States and municipalities also commit massive resources to the policy commitments that fuel the Globalist transformation.

Our response needs to be: Understand and recognize Sustainable Development locally and spread that understanding to others. We are not going to be salvaged by any existent political organization. Average Americans must understand and act to restore their area as the land of the free. There is no profit or power in Sustainable Development's exposure. There is only freedom for you, me and our children.

Consider what has been illustrated here today – The Wildlands Project, Smart Growth, Regionalism, the Three Es, Sustainable or Livable Communities and Sustainable ideology, Tracking and Monitoring methods, and Education for Global Citizenship.

Agenda 21 people are organized even as their active drones don't know what they are organized around. Agenda 21 shows itself everywhere you look.

Do you think our politicians and bureaucrats are serving us?
