## Let's attack the root of the problem:

• Learn to recognize the local and broader patterns and tenants of Agenda 21. This way you can fight back with insight, starting where the attack all around you is happening and where you can win - at the local level.

The Globalist invasion is happening right under our noses. Every County in America has its local Agenda 21 implementation underway.

Let's examine aspects of the 'Local Action' Plan:

## ICLEI

This is the most vulnerable globalist organization operating in America today.

The full name is "The International Council for Local Environmental Initiatives". It is also called "Local Governments for Sustainability". ICLEI is an important NGO that:

- Closely ties policy to man-made Global Warming and climate change;
- Has formed an international Congress filled with city and county representatives. This Congress acts as a shadow World Government.

 Directs Community Development and other local agencies and provides statutory and regulatory provisions that implement Sustainable policy locally.

Local tax funds pay the contract fee. Agenda 21 policymaking is fully invaded upon ICLEI's arrival. At least 600 cities, including Bloomberg led New York City, from all across the nation, have ICLEI contracts. Local governments have been hijacked by world government operatives.

Each ICLEI city's influence is expanded as ICLEI then automatically steers Regional Air, and Water Boards, and many other "regional" transformational governance apparatus.

Article 1 Section 10 makes the following prohibition: "No state shall enter into any Treaty, Alliance or Confederation" with a foreign political entity. Neither may a city. Ask: Is it treasonous for city leaders to contract with ICLEI an International NGO and U.N. related organization? Yes! ICLEI contracts <u>are</u> treasonous.

Contracts with ICLEI guarantee implementation of international political and economic policy at the local level. Drive city alliances with ICLEI out of the communities surrounding you.

4

Where's the Sheriff? It is time for good Sheriffs to take action! Ridding towns of ICLEI is more important to the future of America than was the Sheriff's role in ridding the west of rustlers and train robbers! If Sheriffs are America's last hope, we need Sheriffs to start Kicking ICLEI Out of communities.

So much of the Agenda 21 invasion at the local level relies on the man-made global warming fraud. But the unraveling of this masquerade has not yet hit the local scene. ICLEI is particularly vulnerable because of public awareness of the warming fraud. For several reasons citizens need to react to ICLEI soon! Now *is* the time.

Residents in Spokane Washington and various cities in the Colorado plains are taking on their city's contact and contract with ICLEI as other localized rebellions brew. You can do this too. We are following the *Kick ICLEI Out!*, campaign at FreedomAdvocates.org. I am going to sample the country and pull examples of one Agenda 21 theme that routinely pops up on the local scene. Most hometown participants think they are doing something unique, others think they are doing something for mankind – well they are. They are putting mankind on the verge of serfdom.

You can recognize globalism operating at the local level by recognizing a theme presented by the local Action network and understanding that theme in the context of Agenda 21. The expressive theme I have chosen to display today is use of the Three Es slogan discussed earlier.

The Raleigh City Council adopted their "Vision" in 2008. This has become the norm for city councils across the country.

This is from an Oakland based think tank that works with local governments in the west. The influences are multifaceted.

This one is a regional organization covering the Gulf Coast. Direction that this globalist outfit takes in relationship to the spill over the next 6 months will be interesting indeed.

As you can begin to see the Three Es scam is entrenched in many places. All I can do today is scratch the surface.

The Florida Everglades are under attack. Much of Florida is to be voided of human presence. Sad stories have arisen throughout the state.

Many Universities offer degrees in Sustainability; essentially all campuses imbue the philosophy in a wide range of courses.

Here is an example from Montana of how business associations have committed themselves to the Agenda 21 protocol.

Although lacking the interconnected circles, Pittsburgh, like all metropolitan areas, is committed to Sustainable Development. Push hard enough and local officials will defend themselves by virtue of the fact that federal monies are tied to Sustainable policies.

Agenda 21 shows itself everywhere you look. Do you think our politicians are serving us?

Politicians and other agents of Agenda 21 are inundating us with overlapping schemes that quietly and deliberately drown our property rights and freedom. For surefire evidence, take a look at the plot that is outlined in the <u>U.S. Congress - H.R. 5101 Wildlife</u> <u>Corridors Conservation Act of 2010.</u> This bill includes transboundary tax-payer funded projects for wild animal bridges and tunnels, increasing roadless areas and other means to capture more natural resources and private property for government and its partners.

H.R. 5101 states that "The Secretary, in cooperation with the States and Indian tribes, shall develop a Habitat and Corridors Information System, that shall include maps and descriptions of projected shifts in habitats and corridors of fish and wildlife species in response to climate change; and to assess the impacts of existing development on habitats and corridors." The System is charged with identifying, prioritizing and describing "key parcels of non-Federal land (i.e. state lands and private property) located within the boundaries of units of the National Park System, National Wildlife Refuge System, National Forest System, or National Grassland System that are critical to maintenance of wildlife habitat and migration corridors." This is way over and above what the federal government has already swallowed up under other guises.

Does anyone smell collectivism? Do you think private property is being abolished? Do you think a new system is being designed to reorder our society?

A thousand points of darkness are descending upon us. If we understand Agenda 21's Action Plan, then we can restore Liberty without fighting a thousand battles. Cut off Agenda 21 at its head; *Defeat local implementation of Agenda 21!*
